WPC federation “for lifters by lifters” has been our creed since 1984. We continue to host powerlifting events because of the strong bonds that form through people of all ages helping each other and the friends we meet along the way. Our federation has athletes from 13 to over 80 years old. We have some of the strongest men and women in the world.

Witness incredible feats of strength from powerlifters across the globe!

The world's best powerlifters and bench pressers will be competing for the gold. These are the athletes who train consistently to better their personal records and become best in the world!

Take advantage of this opportunity to promote your products.
