European Record Certification

European Records can be set or broken at National and International competitions. According to the EPC Rules no record will be considered unless entered on this Records Claim Form, which must be duly signed by the Athlete, the Referees adjudicating the lift(s), the Official Weigher and the appointed Technical Officer of the Competition. Certified platform scales must have been used at the weigh in and a copy of the certification certificate attached to this claim. The bar and weights must have been weighed before the competition or immediately after the Record Attempt. The Athletes costume and personal equipment must have been inspected and conform to the requirements of the EPC Rules. A minimum of Two WPC International Referees and One National Referee of a Nationals Federation affiliated to the EPC is required to certify a Record.

We have witnessed the correct performance of the above lift(s) and have checked the weight of the bars and discs. The lifter weighed in within 24 hours of the competition. The lifter and his/her attire have been checked and conform to the requirements of the WPC Rules. We are current members in good standing of a Member Federation of the European Powerlifting Congress or Affiliate EPC.
